EXPERIENCE

Program Analyst
Ebixcash Limited

📅 sep 2022 – Present   📍 Noida, UP

- Developing and maintaining different components of the project using various technologies such as HTML, CSS, C, .NET, SQL, and XML.
- Understanding client requirements and translating them into functional software modules that meet their needs.
- Collaborating with other team members, such as project managers and quality assurance analysts, to ensure timely and high-quality project delivery.
- Participating in the software development life cycle, including requirements gathering, design, development, testing, deployment, and maintenance.
- Conducting code reviews and providing feedback to other team members to improve code quality. Troubleshooting and resolving technical issues that arise during the development process. Documenting code and creating user manuals as needed.

Front end developer Intern
NS Technology

📅 July 2022 – Aug 2021   📍 Noida, UP

- Worked as a front end developer to develop a website based on client requirements.
- Utilized HTML, CSS, Bootstrap, and JavaScript to design the website's front-end components.
- Collaborated with the client to understand their needs and deliver a website that met their requirements.
- Worked independently to meet project deadlines and deliver high-quality work.
- Tested the website's functionality and worked with the client to address any issues.

EDUCATION

B.Tech in Computer Science & Engineering
ITS Engineering College

📅 CPI: 7.61   📍 ITSEC-2023

Senior Secondary Examination JAC - Class XII
RLSY Inter College

📅 Percentage: 72.2%   📍 JAC-2018

Higher Secondary Examination JAC - Class X
RPY High School

📅 Percentage: 77.4   📍 JAC-2016

CODING PROFILE

Hackerrank - @rajeevranjansin1 [Rating: 5 star in C++]
Hackerrank - @rajeevranjansin1 [Rating: 4 star in C]

TECHNICAL SKILLS

- **Programming Languages**: C, C++ (Competitive Programming), Python
- **Data Structures & Algorithm**
- **Object Oriented Programming & Sql**
- **Front End Tech**: HTML5, CSS3, Bootstrap and JavaScript

CERTIFICATION

- Python Programming - A Practical Approach (Show Credential)
  I earned this certificate for successfully completing and passing the quizzes of the course python programming by E ICT Academy, IIT Kanpur course.
- SQL - Hackerrank Certified (Show Credential)
  "Certified by HackerRank in SQL, demonstrating strong proficiency in database management, querying, and data analysis." "Successfully completed HackerRank's SQL assessment, showcasing expertise in SQL and the ability to efficiently work with databases and manipulate data."
- C Programming - Great Learning Certified(Show Credential)
  "Certified by Great Learning for successfully completing the C programming course and excelling in the assessment, demonstrating strong proficiency in writing efficient and functional code."

PROJECTS

Netflix Clone

- aims to provide a user experience similar to popular services like Netflix. Users can register, log in, and access a wide range of movies.
- The project utilizes HTML, CSS, and reactJs for the front end development. while NodeJs and MongoDB serve as the back end.

NS Technology Portfolio Website

- Developed a visually appealing portfolio website using HTML, CSS, Bootstrap, and JavaScript.
- Implemented responsive design for seamless user experience across various devices.
- www.nstechservices.com

UsabilityHub

- Developed a responsive clone of the UsabilityHub homepage using HTML, CSS, and JavaScript.
- Demonstrated attention to detail by accurately replicating the original website's layout, design, and functionality.
- https://rajiev933.github.io/Usability$_{Clone}$/

TinDog

- Developed a responsive website called TinDog using HTML, CSS, and Bootstrap, showcasing proficiency in front-end web development technologies.
- https://rajiev933.github.io/TinDog/

Music Player

- Developed a music player application using HTML, CSS, and JavaScript.
- https://rajiev933.github.io/MusicPlayer/
